L004 ALTERNATE PROPOSALS (MAY 1997)

(a) In order to be considered responsive to the RFP, your basic proposal must comply precisely with the terms and conditions contained herein. You are authorized, pursuant to paragraph (d) of the Preparation of Offers (52.215-13) provision hereof, to submit separate alternate proposals provided rationale is included indicating why the acceptance of an alternate proposal would be more advantageous to the government.

(b) An alternate proposal may provide a second approach to the satisfaction of RFP requirements, with or without any exceptions to the requirements thereof. A complete proposal of the alternate approach must be provided

except for those sections of the basic proposal which are not changed by the alternate approach. Any exceptions or waivers to the requirements included in the alternate approach must be justified or explained.

(c) An alternate proposal may also address the military specifications and standards which the Air Force considers appropriate in the fulfillment of the requirements of this acquisition. A complete proposal of the alternate approach must be provided except for those sections of the basic proposal which are not changed by the alternate approach. Any exceptions or waivers to the requirements included in the alternate approach must be justified or explained. In the interest of reducing costs, offerors are encouraged to carefully review each of the specifications and standards and submit alternate proposals which clearly set forth the recommended changes to the cited specifications and standards, together with the rationale therefor and the contemplated reduction in price which would be applicable for each if the recommended changes are accepted.

(d) If there are fundamental changes in government requirements which result from an alternate proposal, the future actions will be handled in accordance with FAR 15.606, Changes in Government Requirements.

L011 APPLICABLE CLAUSES (MAY 2002)

The appropriate clauses to be included in the contract will be determined based on Offeror's response to the Section K representations.

(a) Patent Rights. If the Offeror is a small business firm or nonprofit organization, then FAR 52.227-11, PATENT RIGHTS-RETENTION BY THE CONTRACTOR (SHORT FORM), DFARS 252.227-7034, PATENTS - SUBCONTRACTS, and DFARS 252.227-7039, PATENTS - REPORTING OF SUBJECT INVENTIONS will be used in Section I. Otherwise, FAR 52.227-12, PATENT RIGHTS - RETENTION BY THE CONTRACTOR (LONG FORM), will be included in Section I consistent with FAR Part 27.

(b) Cost Accounting Standards. Section I of this solicitation may contain the three Cost Accounting Standards clauses at FAR 52.230-3, 52.230-4, 52.230-5, and/or 52.230-6. The resultant contract will contain only those clauses required based on the Offeror's response to the Section K certification titled Cost Accounting Standards Notices and Certification (National Defense).

(c) State of New Mexico. Section I of this solicitation may contain the clause at FAR 52.229-10, STATE OF NEW MEXICO GROSS RECEIPTS AND COMPENSATING TAX. The resultant contract will contain this clause only if performance is in whole or in part within the State of New Mexico and the contract directs or authorizes the contractor to acquire property as a direct cost under the contract.

(d) Educational institutions and nonprofit organizations. If a cost-reimbursement type contract is contemplated and the offeror is an educational institution, paragraph (a) of the clause at FAR 52.216-7, Allowable Cost and Payment shall be altered in the resultant contract to refer to FAR Subpart 31.3 for determining allowable costs. Similarly, if the offeror is a nonprofit organization (other than an educational institution, a State or local government, or a nonprofit organization exempted under OMB Circular No. A-122), paragraph (a) of the clause at FAR 52.216-7 shall be altered to refer to FAR Subpart 31.7. In addition, if the offeror is an educational institution, DFARS 252.209-7005, MILITARY RECRUITING ON CAMPUS, will be added to Section I of the resultant contract.

(e) Subcontracting Plan. If the offeror has a comprehensive subcontracting plan under the test program described in 219.702(a), DFARS 252.219-7004, SMALL, SMALL DISADVANTAGED AND WOMEN-OWNED SMALL BUSINESS SUBCONTRACTING PLAN (TEST PROGRAM) H081 will be used in lieu of FAR 52.219-9, FAR 52.219-10, FAR 52.219-16, and DFARS 252.219-7003.

L014 SOLICITATION EXCEPTIONS (FEB 1997)

Should the Offeror not concur with the proposed contract schedule and provisions, or desires modification thereto, it should be so stated in the proposal transmittal letter with reasons therefor.

L015 RFP TECHNICAL CLARIFICATIONS (FEB 1997)

Offerors who determine that the technical requirements of this RFP require clarification(s) in order to permit submittal of a responsive proposal shall submit all questions in writing within 10 days of receipt of the RFP. These questions shall be directed to the Contract Negotiator identified on the cover page of the solicitation.

L029 DETERMINATION OF COMPETITIVE RANGE (FEB 1997)

a. Pursuant to FAR 15.306, the Contracting Officer's determination of competitive range of proposals submitted as a result of this solicitation will consider such criteria as technical evaluation/ranking of the proposal, initial cost/ price proposed, and other items set forth in Section M of this solicitation. See the Section M paragraph entitled "Evaluation Criteria," for a definitive listing of these criteria and their relative importance.

b. Offerors are hereby advised that only those proposals determined to have a reasonable chance for award of a contract will be included in the competitive range. While every effort will be made to maintain strong competition, the Contracting Officer will also look to eliminate time consuming and unnecessary discussions with those offerors whose proposals have no reasonable chance for award. This procedure is considered beneficial to both the Air Force and the offerors involved since, in addition to saving further expenditure of resources, acquisition lead time should be reduced.

c. Accordingly, offerors should submit initial proposals on their most favorable terms, from both a technical and cost/price standpoint. Again, it should be noted that proposals will not be included in the competitive range solely on the basis of technical acceptability, nor will they be included due to cost/price considerations alone.

d. Offerors whose proposals are not included in the competitive range will be notified as soon as practicable. Additional information relative to such proposals will be provided through debriefing of unsuccessful offerors.

L045 ACCESS TO AIR FORCE COMPUTER SYSTEMS (MAR 1999)

If performance under this contract will require access to Air Force computer systems (stand alone or networked), compliance with Air Force Instruction (AFI) 33-119 and Air Force Systems Security Instruction (AFSSI) 5027 is mandatory. It should be noted that such access requires, at a minimum, a National Agency Check or Entrance National Agency Check in accordance with DoD 5200.2-R, Personal Security Program. Offerors should make themselves familiar with local procedures for processing such requirements, and be prepared to be in compliance on the first day of contract performance. Failure to comply with this requirement may be considered a failure to perform.

L046 SUBMISSION OF COST OR PRICING DATA (FEB 2003)

(a) It is anticipated that pricing of this action will be based on adequate price competition; therefore, offerors are not required to submit cost or pricing data. However, if after receipt of proposals it is determined that adequate price competition does not exist, cost or pricing data (see FAR 15.406-2, Certificate of Current Cost or Pricing Data) shall be required.

(b) If it is determined that adequate price competition does not exist, the offeror shall provide current, complete and accurate cost or pricing data within _____ (insert calendar days) after receipt of the Contracting Officer's request.

OTHER SOLICITATION PROVISIONS IN FULL TEXT

M001 SOURCE SELECTION (FEB 1997)

The government will select the best overall offer, based upon Technical Excellence, Cost and other General Considerations. All evaluation factors other than cost, when combined, are significantly more important than cost. However, cost/price will still contribute substantially to the best value award decision. The source selection for this will be conducted in accordance with AFFARS Appendix BB, "Streamlined Source Selection Procedures", of latest issue, as amended or supplemented. Contract(s) may be awarded to the offeror, deemed responsible in accordance with the Federal Acquisition Regulation, and whose proposal is judged to be the most advantageous to the Government based on the evaluation criteria. The Government may:

- a. Award one, more than one, or no contract at all, depending on the quality of the proposal(s) submitted and the availability of funds.
- b. Award to other than the lowest evaluated cost and/or cost and fee or to other than the highest technical offeror.
- c. Reject proposals that are evaluated to be unrealistic in terms of program commitments, including contract terms and conditions, or unrealistically high or low in cost when compared to Government estimates, such that the proposals are deemed to reflect an inherent lack of competence or failure to comprehend the complexity and risks of the program.

The Government will:

- (1) Consider, throughout the evaluation, the "correction potential" of any deficiency that is discovered.
- (2) Eliminate any competitive advantage resulting from the use of government furnished property.
- (3) Evaluate general considerations which will include proposed contractual terms and conditions; the results of award surveys or other capability/capacity reviews, if applicable, and includes the proposed termination liability funding profile against the availability of funds.

M002 EVALUATION CRITERIA (FEB 1997)

Award will be made to the offeror proposing the combination most advantageous to the government based upon an integrated assessment of Technical Excellence, Cost and other General Considerations in descending order of importance.

a. Technical Excellence, which is the most important criterion for the acquisition, will be evaluated based upon the attached assessment criteria (see Attachment # _____ (insert attachment number) in descending order of importance). The narrative of each assessment criterion is provided to describe the scope of the criterion and does not contain separate subcriteria. The evaluation of technical excellence will include strengths, weaknesses, and risk.

b. Cost proposals will be evaluated to ensure realism, reasonableness, and completeness. The evaluated cost may include adjustments to offset any competitive advantage from the use of government furnished property or to reflect other government costs associated with the proposed approach. The government may use cost information furnished by other government sources or an independent cost estimate in evaluating the realism and/or reasonableness of the proposed cost/price in addition to the cost and/or pricing data submitted with the proposal. The evaluation of realism will assess the compatibility of the proposed costs and the scope of the effort; reasonableness will be evaluated based upon the acceptability of the estimating methodology; and completeness will be evaluated on the basis of the proposal's responsiveness in providing all RFP requirements, traceability of estimates, and the sufficiency of information to enable Government review.

c. General considerations include proposed contractual terms and conditions; the results of pre-award surveys or other capability/capacity reviews, if applicable; and includes the proposed termination liability funding profile against the availability of funds.
